

Specifying Concrete Parking Lots

Important date to save: April 16, 2008

Please join us for this interesting and informative lunch meeting to discuss topics relating to design and specification of concrete pavements for parking lots. We will discuss issues critical to specifying quality concrete parking lots including proper design, specifications, materials, construction methods and inspection. We look forward to seeing you there.

Date: Wednesday, April 16th 2008
Time: 11:30 a.m. – 1:00 p.m.
Location: S&ME, Inc – Knoxville Branch Office
1413 Topside Road
Louisville, Tennessee 37777
(865) 970-0003 contact: John Pearson, P.E.
